INTRODUCTION

Since 2010, our dedication has been fueled by our founding motto: 'The innovation to make a difference.' We know that food packaging plays a defining role in building a more sustainable tomorrow. By continuously developing and providing truly circular food packaging, we aspire to enable our customers to protect and make food stand out, using ever less of our planet's resources.

Our expertise combines commercial intelligence, operational excellence, and a commitment to sustainability, providing our customers with solutions that enhance efficiency, reduce costs, and strengthen brands.

There are no easy solutions when it comes to changing our industry. But going circular is not only the smart way forward. It's the only way forward.

More Than Packaging - A Smarter Supply Chain

Supplying sustainable food packaging solutions to the food hospitality sector and beyond, we ensure products stay fresh, brands stay sharp, and operations are seamless. We take sustainability a step further by assessing every aspect of your food packaging requirements, supporting you with products and supply chain solutions that drive environmental improvement.

SEPACK is a trusted supply chain partner for businesses that rely on consistent, scalable logistics and strict compliance. We support organisations operating at national and global scale, providing high-volume, time-critical packaging with reliability, and control their operations demand.

SEPACK GROUP

SEPACK is a leading ECO-Green Packaging Full Scenario Solution Service Provider. SE Group founded 2010, Head Office in NY and Shanghai. We had build Companies from Germany, UK, UAE, Indonisa and China, we are delivering superior value relationships to brands, distributors, and public institutions across the USA, UK and Europe.

SEPACK wants to lead the Food Packaging Industry forward by supporting the transition from linear towards more ECO-Green Circular Packaging.

STRENGTH

We provide a complete range of products for different markets. It is being chosen and favored by more customers.

TAKE FOIL AS OUR PROMISE, TOWARD A GREEN FUTURE

On the journey of aluminum foil packaging innovation, we have always taken "sustainability" as our core criterion. We are well aware of the responsibility carried by every piece of aluminum foil—by optimizing production processes to reduce energy consumption and emissions, we minimize the environmental impact of packaging from its source.

The infinite recyclability of aluminum foil is the foundation of our green commitment: it is 100% recyclable, and the energy consumption of its recycling process is only 5% of that required for primary aluminum production, truly achieving a closed-loop resource cycle. We do not merely manufacture packaging that protects products; we are more committed to creating solutions that safeguard the Earth. From eco-friendly lightweight design to the application of environmentally friendly inks, every step we take accumulates strength for a low-carbon future.

Standing side by side with customers and coexisting in harmony with nature, we take green packaging as a bridge to align commercial value with ecological responsibility, jointly depicting a long-term blueprint for sustainable development.
